

Finding, fitting and adjusting the right saddle for every horse and rider combination in the Yorkshire area for over 30 years!

COMING SOON! A NEW bespoke saddle fitting experience!

From July 2018, I invite you and your horse to visit my new saddle fitting concept, that's right – bring your horse to me...!

Since I started my business in 1988, saddle related services have remained largely the same, and I've always had a plan to improve this experience for my horse and rider clients.

In July 2018, I'm breaking the mould of the traditional tack shop retail outlet by launching a bespoke saddle fitting experience for you and your horse. My new concept will feature a full sized arena with an excellent surface for ridden assessments to enable you to have time to trial saddles and saddle fits with my support. Alongside this, will be my new saddle showroom boasting a superb range of saddle brands for every discipline, offering you and your horse the widest choice in the area to ensure we can find the perfect solution to meet both of your needs. In addition, I'll have my fully operational saddle workshop right on-site for any repairs your existing saddle may need.

You and your horse will be in expert hands. From my early years training at Roy Mangan Saddlery, Stow on the Wolds and Horse Requisites, Newmarket I went on to become a fully qualified Society of Master Saddlers Saddle Fitter. I've also undertaken specialist product training with brands renowned for their focus on horse and rider comfort such as Bates Saddles and Wintec Saddles, including unique systems for your horse's comfort such as the EASY-CHANGE Fit Solution and CAIR Cushion System.

Mobile saddle fitting available.
